At the request of many Musical Theatre participants last year, Trivium will offer a club to train scholars in directing and leadership in the context of theatre. Not for the faint of heart, this club will be rigorous in its program, following the wisdom of Thucydides regarding the Spartans: that one person "is much the same as another, and that he is best who is trained in the severest school." Through a combination of focused training as a small cohort and direct application in assisting the Middle School Musical Theatre program, scholars will develop experience and specific tactics for

maximizing their own effectiveness as leaders of their peers in theatre.

Interested scholars must submit an application to Mr. Bradshaw by Monday, August 21; all are welcome to initial meetings in order to get a taste of the unique combination of focus and fun that will characterize this club. We will meet twice weekly (with an option to observe on Tuesdays as well) until November, at which point we will begin adding days to further assist the production of Willy Wonka & the Chocolate Factory. There will be regular “homework” assignments until November, such as readings, written strategy plans, and research; no assignment will require more than 30 minutes from one meeting to the next. After the performance, meetings will return to twice weekly for assessment and discussion of successes and failures, and to look ahead to leadership in subsequent productions.

All are welcome to apply; few will have the humility, commitment, and willingness to change that will be necessary to succeed. If you join, this club will be one of the greatest challenges of your high school career. Do not take it on lightly. There will be an application process for this club. Instructor will contact families regarding payment once their scholar’s application has been accepted.

**Class Dates:** Mondays & Thursdays, Sept 7 – Nov 30 (optional Tuesdays) plus added dates in November per instructor. (No Class: Oct 9, Oct 12, Oct 16, Oct 19 or Nov 23)

Mock trial is an amazing program, teaching and enhancing analytical thinking and public speaking skills, as well as poise and self-confidence. Each year, the Arizona Foundation for Legal Services and Education puts out a new mock trial case that is either criminal or civil in nature. Each team is comprised of 6-8 students who present either the prosecution/plaintiff or defense side of the case through playing the roles of attorneys and witnesses in a simulated trial. Each team prepares both sides of the case, including opening statements, direct examinations, cross-examinations, and closing arguments.

During a given round of competition, a team will present one side of the case against a team from a different school that would be presenting the other side. Arizona holds a regional competition in early March from which teams have the opportunity to advance to the state competition in late March or early April. The winner of the state competition advances to the national competition in May. Beginning in January, students will be required to attend extended and/or additional practice times in preparation for regional, state, and national competitions.
