- Benefiting the community through service projects
- Creating valuable friendships
- Advancing international understanding and goodwill

The club will be run by two co-presidents who will be in charge of organizing the events with the help of an advisor and fellow members. They will also be in charge of communicating to the parents and/or students about upcoming events.

Mock trial is an amazing program, teaching and enhancing analytical thinking and public speaking skills, as well as poise and self-confidence. Each year, the Arizona Foundation for Legal Services and Education puts out a new mock trial case that is either criminal or civil in nature. Each team is comprised of 6-8 students who present either the prosecution/plaintiff or defense side of the case through playing the roles of attorneys and witnesses in a simulated trial. Each team prepares both sides of the case, including opening statements, direct examinations, cross-examinations, and closing arguments. During a given round of competition, a team will present one side of the case against a team from a different school that would be presenting the other side. Arizona holds a regional competition in early March from which teams have the opportunity to advance to the state competition in late March. The winner of the state competition advances to the national competition in May. Beginning in January, students will be required to attend extended and/or additional practice times in preparation for regional, state, and national competitions.

We will meet on Tuesdays after school from September 11-September 25 for everyone interested in participating. We will hold formal auditions for the team on the evening of Tuesday, October 2. Individuals selected for the team can then submit payment for club participation.

The Trivium Philological Society, or "Philo" for short, is an alliance (societas) of students who share a love (philia) of human discourse (logos). It is also "philological" in the traditional academic sense in that it will be centered on the reading and discussion of Classical Latin texts and the ideas and themes raised therein. Philo is a great place to deepen your appreciation of Latin or to keep your Latin skills sharp while learning Greek. Our primary purpose is to attain and share the understanding and enjoyment of Latin texts through conversation in a relaxed and convivial setting.
